## THE INSTITUTE

**The National Agricultural Research Institute** was established by an Act of National Parliament of Papua New Guinea (PNG) in July 1996 as a public funded, statutory research organisation, to conduct and foster applied and adaptive research into:

- i) any branch of biological, physical and natural sciences related to agriculture;
- ii) cultural and socioeconomic aspects of the agricultural sector, especially of the smallholder agriculture;  
and
- iii) matters relating to rural development. And of relevance to Papua New Guinea.

Besides, NARI is responsible for providing technical, analytical, diagnostic and advisory services and up-to-date information to the agriculture sector in PNG.

The Institute's purpose (strategic objective) is to accomplish enhanced productivity, efficiency, stability and sustainability of the smallholder agriculture sector in the country so as to contribute to the improved welfare of rural families and communities who depend wholly or partly on agriculture for their livelihoods. This is intended to be accomplished through NARI's mission of promoting innovative agricultural development in Papua New Guinea through scientific research, knowledge creation and information exchange.

In its vision for PNG, NARI sees "Prosperous PNG Agricultural Communities".

# **Domestication Potential and Marketing of *Canarium* Nuts in the Pacific**

## **A Literature Review**

Compiled by Tio Nevenimo<sup>1</sup>, John Moxon<sup>1</sup>, Johnny Wemin<sup>1</sup>, Mark Johnston<sup>1</sup>  
and Roger Leakey<sup>2</sup>

**Information Bulletin No. 13**

**June 2009**

<sup>1</sup> Lowlands Agricultural Experiment Station, National Agricultural Research Institute, PO Box 204, Kokopo, Keravat, East New Britain, Papua New Guinea

<sup>2</sup> Agroforestry and Novel Crops Unit, School of Tropical Biology, James Cook University, PO Box 6811, Cairns, Queensland 4870, Australia

## Table of Contents

<b>1.</b>	<b>Introduction.....</b>	<b>1</b>
<b>2.</b>	<b>Botanical Description of <i>Canarium</i> Species.....</b>	<b>2</b>
<b>3.</b>	<b>Origin and Distribution of <i>Canarium</i> Species .....</b>	<b>3</b>
	3.1 <i>Canarium</i> species in Papua New Guinea and the Solomon Islands.....	4
	3.2 <i>Canarium ovatum</i> in the Philippines.....	4
<b>4.</b>	<b>Environmental Requirements.....</b>	<b>4</b>
	4.1 Altitude.....	4
	4.2 Rainfall.....	4
	4.3 Soil.....	5
<b>5.</b>	<b>Fruiting and Harvesting.....</b>	<b>5</b>
	5.1 Flowering.....	5
	5.2 Fruiting.....	6
	5.3 Harvesting.....	6
	5.4 Yields.....	6
<b>6.</b>	<b>Products and Uses.....</b>	<b>6</b>
	6.1 Kernels.....	6
	6.1.1 Nutritional value of kernels.....	7
	6.1.2 Kernel oil.....	8
	6.2 Resins.....	8
	6.3 Timber.....	8
	6.4 Fruit.....	9
	6.5 Medicinal Products.....	9
	6.6 Shell and testa.....	9
	6.7 Young shoots.....	10
	6.8 Galip tree in traditional culture.....	10
	6.9 Environmental service.....	10
<b>7.</b>	<b>Domestication of <i>Canarium</i> Species.....</b>	<b>10</b>
	7.1 <i>Canarium ovatum</i> .....	10
	7.2 <i>Canarium indicum</i> .....	11
	7.2.1 Survey to assess potential.....	11
	7.2.2 Propagation.....	12
	7.2.2.1 Propagation by seed.....	13
	7.2.2.2 Vegetative propagation.....	13
	7.2.3 Cultivation and management practices.....	14
	7.2.4 Farming systems.....	15
	7.2.5 Conservation of genetic resources.....	16
	7.2.6 Intellectual property rights .....	16
<b>8.</b>	<b>Post Harvest Handling and Processing.....</b>	<b>17</b>
	8.1 Depulping of fruits.....	17
	8.2 Drying of kernels in shell.....	18
	8.3 Grading Kernels and Nuts.....	18
	8.4 Nut storage.....	18
	8.5 Shelling.....	18

8.6	Testa removal.....	19
<b>9.</b>	<b>Processing and Packaging.....</b>	<b>19</b>
9.1	Kernel oil extraction.....	20
9.2	Processing kernel for eating .....	20
9.3	Packaging.....	20
<b>10.</b>	<b>Marketing.....</b>	<b>20</b>
10.1	Commercial marketing experience .....	21
10.1.1	Local market in PNG.....	21
10.1.2	Local market in Solomon Islands.....	22
10.1.3	Local market in Vanuatu.....	23
10.1.4	Overseas.....	24
10.2	Reasons for the failure / success of marketing efforts .....	24
<b>11.</b>	<b>Conclusions and Recommendation .....</b>	<b>25</b>
11.1	Conclusions.....	25
11.2	Recommendations.....	26
<b>Reference.....</b>		<b>28</b>

### List of Tables

Table 1:	Edible <i>Canarium</i> species with edible kernels and their general distribution.....	3
Table 2:	Edible <i>Canarium</i> species and their general distribution in PNG.....	4
Table 3:	Chemical composition of the <i>Canarium</i> kernels compared to <i>Macadamia</i> nuts.....	7
Table 4:	Chemical composition of kernel oil (% of total oil).....	7
Table 5:	The scheme for processing <i>Canarium</i> nuts developed by the Food Preservation and Processing Unit of the University of Technology, Lae, Papua New Guinea.....	17
Table 6:	Galip NIS grading scheme developed by KGIDP in Kandrian and FPPU Unitech. Lae (1996) in PNG.....	18
Table 7:	Sales of <i>C. indicum</i> (kg) kernels by the Kava Store, Santo, Vanuatu.....	23
